

General Statement

I am seeking employment on the Mendocino Coast. I am available full- or part-time. I have a diverse set of skills which can be applied to a wide range of situations. I am presently self-employed, doing photography, custom photo lab work, freelance design projects, and selling my nature photography. This is a precarious living at best. I would prefer to have a steady day job and give up most of the photo business, retaining only the nature photography.

Skills

Design and implementation of web sites, design and layout for print media, photography, photo darkroom work, writing, and copy editing. I am highly proficient with Photoshop, PageMaker, and various HTML editors.

I am reasonably proficient with Illustrator, Flash, GoLive, and Word; I have some familiarity with Quark, InDesign, and many others. I am proficient at hand coding standards compliant HTML using Cascading Style Sheets, I write JavaScripts, and I do a little cgi programming. I am highly literate, I work well with other people and the general public, and I have a good eye for detail.

My recent web projects include:

The Mendocino Theatre Company: <http://www.1mtc.org>

Digging Dog Nursery: <http://www.diggingdog.com>

The Outdoor Store: <http://www.mendooutdoors.com>

Employment History

I have been living on the Mendocino Coast for 6 1/2 years. During this time, I have continued my photo business while frequently working part-time or short term day jobs. These jobs have included the following:

Lark in the Morning. I helped layout the catalog and maintain the website from 5/99-11/99. I have also packed mail orders and done gardening work for Lark intermittently.

The Outdoor Store. I did retail sales part-time from 8/98-5/99.

California State Parks. I was a park aid at Westport-Union Landing State Beach for two summers, '96 and '97.

Mendocino Unified School District. I worked as a substitute teacher from 1/96-1/98.

Wind and Weather. I pulled and packed mail orders from 10/94-10/95.

Prior to moving to the Mendocino Coast, I worked for **Palmer's Camera** in Berkeley from 7/87-6/94. At Palmer's, I was the purchasing agent for the darkroom department, I set up the computerized inventory system for that department, and I did shipping and receiving.

Education

College of the Redwoods, Mendocino Coast. I have been enrolled at C of R for the last two years. My course work has included two semesters of digital imaging, three semesters of print design and layout, a basic HTML class, some biology classes, and an art history class.

UC Berkeley Extension. I was awarded a Certificate in Teaching English as a Second Language in June, '91.

UC Berkeley. I was awarded a BA in Dramatic Art in May, '84.

Other Interests

I am active in the local theatre community, I am an amateur naturalist, I garden, and I have eclectic tastes in music and literature.

My print portfolio, academic transcripts, and references are available by request.
